

FTWM-01L Wall Mount Enclosure

Sumitomo Electric Lightwave's FTWM-01L Wall Mount Enclosure is a sturdy indoor interconnect and splice-housing unit, capable of holding a single FOX Splice Cassette, LGX Cassette, or interconnect panel with a splice chip for up to 24 LC-Duplex or 12 SC connections, or act as a simple splice protection box. In addition, its small size and low profile enables this enclosure to be deployed in many indoor applications and locations. Two housings can even be combined to make a single higher-capacity unit.

FEATURES

- durable small-sized aluminum frame
- stackable with second unit
- padlock eyelets
- one LGX panel space
- wall- and DIN Rail-mountable

BENEFITS

- easy opening to manage and access fibers
- allows for low profile
- provides security to inside of enclosure
- stackable feature allows for double the fiber in one location

APPLICATION & RECOMMENDED USE

Interconnect Panel Application

- Using Interconnect Panels, Fan-out Kit, & Splice Chip

Cassette Application

- Using FOX Splice or LGX Cassettes

Stackable Application

- Allows up to 2 enclosures to be stacked
- Increases fiber capacity in a single wall space
